

Gulfstream™

G600

REDEFINING EXCELLENCE

An aerial photograph capturing a vast expanse of fluffy, white clouds from a high altitude. The sun is positioned near the horizon, creating a brilliant, golden glow that illuminates the scene. The sky transitions from a deep, dark blue at the bottom to a bright, fiery orange and yellow at the top. The clouds are densely packed and appear to stretch far into the distance, creating a textured, undulating surface. The overall atmosphere is serene and majestic, evoking a sense of vastness and hope.

DISCOVER PROMISE IN
EVERY JOURNEY

RELENTLESSLY PURSUING PERFECTION

THE TRUE MEASURE OF SUCCESS ISN'T BASED ON HOW WELL YOU DO ONE THING

It is measured in all the ways that dedication, precision and boldness come together.

Class-leading speed and range, fuel-efficient engines and a spacious cabin designed for comfort and productivity. The Gulfstream G600 exceeds your every expectation.

MAXIMIZE EVERY MINUTE

LIFE'S BEST MOMENTS COME WHEN YOU HAVE THE FREEDOM TO
CONQUER THE GLOBE

In the G600, you can fly 6,500 nautical miles/12,038 kilometers at
Mach 0.85 or 5,500 nautical miles/10,186 kilometers at Mach 0.90.

Over a typical year, flying at Mach 0.90 will save you more than 50
hours travel time over competing aircraft.

NBAA IFR theoretical range. Actual range will be affected by ATC routing, operating speed, weather, outfitting options and other factors. All performance is based on preliminary data and subject to change. Time savings based on difference between Mach 0.80 and Mach 0.90 on trips totaling 500 flight hours a year.

ROOM WITH A VIEW

ALTITUDE ALTERS YOUR PERSPECTIVE

Whether a ski weekend in Aspen or an investors' conference in Geneva, the G600 provides a bright, quiet, 100-percent-fresh-air cabin that ensures you arrive at your destination refreshed and ready to go.

With four living areas, you work, dine, entertain and relax—all in spaces designed with the finest interior options you select.

IMMERSED IN BREAKTHROUGH TECHNOLOGY

EXCELLENCE BREEDS PEACE OF MIND

The G600 is an aircraft ahead of its time. The Symmetry Flight Deck™ introduces active control sidesticks that provide visual and tactile feedback between pilots. Ten touch-screen displays and Phase-of-Flight™ intelligence vastly reduce the number of switches in the flight deck and speed startup time.

ADVANCED FEATURES

OPTIMIZED INTERIOR

Space where you need it. Comfort throughout. The G600 features wide leather seats, sturdy stowable conference tables and lie-flat seating. The cabin dimensions are optimized to ensure the ample space doesn't come at the expense of speed, range or efficiency.

CABIN EXPERIENCE

100 percent fresh air is replenished throughout a cabin designed to be the quietest in business aviation. A low cabin altitude leaves travelers comfortable en route and refreshed on arrival.

SIGNATURE GULFSTREAM WINDOWS

Fourteen panoramic windows—the largest in the aviation industry—offer stunning views, infuse the cabin with natural light and ensure you arrive at your best.

FLIGHT DECK TECHNOLOGY

Revolutionary touch-screen interfaces enhance operational efficiency and are interchangeable for greater reliability. A next-generation enhanced flight vision system linked to a head-up display heightens pilot awareness in low-visibility situations. The Symmetry Flight Deck™ provides one of the safest, most intuitive flight systems in business aviation.

ACTIVE CONTROL SIDESTICKS

Two active control sidesticks, the first in business aviation, improve communication between pilots and eliminate the need for control columns, creating more space and better comfort in the flight deck than a traditional pedestal-mounted yoke.

WORLDWIDE CUSTOMER SUPPORT

With maintenance facilities around the world, Field and Airborne Support Teams (FAST) and personalized customer service, operators never fly beyond the reach of Gulfstream Customer Support.

THE SHAPE OF PEAK PERFORMANCE

DRIVEN BY INNOVATION

Aerodynamic and entirely clean, the sculpted wings of the G600 are the most advanced in business aviation. The innovative wing design and quiet engines render the G600 more efficient than other aircraft in its class. These advances provide you with lower operating costs and reductions in noise levels and emissions.

SET A BOLD COURSE

DISCOVER A NEW STANDARD OF EXCELLENCE

Find time aboard this revolutionary aircraft. Time to work. Time to relax. Time to live.

THE GULFSTREAM PROMISE

How we serve you is just as important as how your aircraft performs.
By striving to delight you with every interaction, we deliver a memorable
experience that enriches your journey.
